#WANDERPRESETS

ABOUT THE

Wander Presets

THE WANDER PRESET BACK INCLUDES FIVE INDIVIDUAL PRESETS CREATED FOR LIGHTROOM CC. EACH INSPIRED BY PLACES I HAVE VISTED.

TAG #WANDERPRESETS
SO I CAN SHARE THE ART YOU
CREATE.

THESE PRESETS WORK BEST FOR
.JPG PHOTOS SHOT IN OUTDOOR
LIGHTING OR DIRECT SUNLIGHT.

EDIT PHOTOS IN THE LIGHTROOM
ON YOUR PHONE.

PRESETS ARE BEST USED ON
.JPG IMAGES.

PLEASE NOTE, THESE ARE NOT
FILTERS. PRESETS WORK
DIFFERENTLY ON EVERY
PHOTO DEPENDING ON LIGHTING,
COLORS, ETC. YOU WILL LIKELY
NEED TO TWEAK THE PRESETS
A BIT.

Editing Tips

EXPOSURE

DEPENDING ON WHAT TYPE OF LIGHTING YOU SHOT YOUR PHOTO IN, YOU SHOULD PLAY AROUND WITH THE EXPSOURE AND CONTRAST TO ADD THE RIGHT ABOUT BRIGHTNESS TO YOUR PHOTOS.

COLORS

EACH OF THESE FILTERS PLAY WITH COLORS IN A UNIQUE, BUT SIMILAR WAY. ADJUST THE LUMINANCE AND SATURATION OF THE COLORS TO GET THE TONES YOUR LOOKING FOR. I RECOMMEND PLAYING WITH THE ORANGES, GREENS, AND BLUES.

LENS CORRECTIONS

MANY LENS CAN CAUSE DISTORATION TO YOUR PHOTOS. CHECK THE “ENABLE PROFILE CORRECTIONS” BOX UNDER THE LENS CORRECTION SECTION TO REMOVE ANY LENS DISTORTION.
